

B-HVS Families,

Our school garden is being planted with some of the many things we have grown in our greenhouse. Students have been working hard to be sure we have healthy and happy plants. With the end of this school year in sight, we need help from some of you to take care of the garden during our summer break. Watering is automatic, so weeding and harvesting will be your main tasks, and you will only need to check on the garden a few times during your assigned week.

If you are interested in volunteering, please complete the bottom of this form and return it to your child's teacher. We will contact you with confirmation on the dates that your help will be most appreciated.

If you have any questions, please call 744-6969.

Thank you,  
B-HVS Greenhouse Committee
